## EDUCATION

### B.Eng. in Computer & Communication

[American University of Beirut](#)

09/2013 - 06/2017 Beirut, Lebanon

- Minor in Computational Science

### B.Eng. in Computer & Communication

[University of California Berkeley](#)

06/2015 - 08/2015 Berkeley CA, United States

- Introduction to Artificial Intelligence
- Operating Systems & Systems Programming

## ACHIEVEMENTS

### BDL Accelerate Hackathon

Founder & Developer of Dr. Jones App

### Automatic License Plate Detection System

A combination of image processing and machine learning techniques to detect, recognize Lebanese License Plates and match them with the Security Forces' database.

## SKILLS

### Technologies

Objective C

Swift

Python

Django

Docker

Jenkins

AWS

OpenCV

Machine Learning

Java

### Languages

English

French

Arabic

## EXPERIENCE

### Software Engineer

[Anghami](#)

07/2017 - ongoing

https://www.anghami.com/

### Full Stack Developer

[Lebanese Red Cross Beit Mery Branch](#)

09/2016 - 02/2017

### Co-founder & Developer

[Lebanese Quora](#)

08/2016 - ongoing

http://lebanesequora.com

### iOS & Backend Developer

[e-Valuation](#)

03/2015 - 03/2017

https://itunes.apple.com/lb/app/e-valuation-ndj/id1095164220

### iOS Developer

[Tedmob](#)

10/2015 - 03/2016
